-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/21/05 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-4, 8-10, 12-14, 18, 25, 28-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Claim 4 defines a non-existent variable.
2. Claim 10 is in error. F cannot be a bare nitrogen, and it cannot be double bonded, as the Formula shows it to be single bonded.
3. Claim 14 is in error. This is not a permitted choice for E.
4. The b) proviso appearing near the end of claim 18, claim 25, claim 28 and claim 29 is of unknown function. It appears to repeat the original requirement set forth in the definitions of the variables (see e.g. claim 18, lines 7-8 below the formula). That is, this requirement is already embedded in the definitions of the variables. If this is intended

Art Unit: 1624

to further limit the claim, then the wording fails to do so, since it does not appear to do anything other than repeat what is already present. Thus, it has no actual role.

5. In claim 18, the second F choice is written as NR ⁴ⁱ This is incorrect, as the space should not be present, and the semicolon appears as part of the superscript.
6. In claim 18, claim 25, claim 28 and claim 29, there is a comma missing between the 5th and 6th definitions for Z, so that the two choices run on to each other.
7. Further, in claim 18, claim 25, claim 28 and claim 29, the 6th choice has (-O) but should have (=O) as in the previous term. Further, the term is missing its second right parenthesis.
8. The word "been" at sixth from last line of page 7 (next to last line of R5 definition in claim 18) does not make sense. Is some other word intended?
